

Bubbling Rocks

are constructed from lightweight GFRC. Using Hargrove's proven molding techniques, each rock is molded from natural stone and hand finished for unparalleled realism.

SONOSS1

Sonoma (left) The Sonoma is a stone spire with natural crevasses which create dramatic splashing on its surface and features a 3/4" outlet for 180° water coverage. (Dimensions 12" x 17" x 24")

MESASS1

Mesa (right) The Mesa is a raised plateau with water falling from a 3/4" outlet for 360° water coverage. (Dimensions 22" x 15" x 9")

CASCSS3

Cascade (above) The Cascade is natural sandstone with three 3/4" outlets with a waterfall cascading from the top and two lower bubblers for 270° water coverage. (Dimensions 32" x 18" x 24")

ADIRLS2

Adirondack (left) The Adirondack is a boulder with two 3/4" outlets flowing from two levels giving 360° water coverage. (Dimensions 36" x 24" x 28")

Basalt Columns

are constructed from lightweight GFRC. Each column is molded from natural basalt and hand finished, achieving detail only found in nature. A basalt column is an ideal accent for any space, adding the tranquil sound of water and the beauty of natural stone.

20" Basalt Column features a pooling area which fills with water creating a gentle fall down all sides for a 360° water coverage from one 1 1/2" outlet. (Dimensions 12" x 14" x 20")

30" Basalt Column features a unique top that allows water to bubble up from one 1 1/2" outlet, then gracefully flows down the sides for 270° water coverage. (Dimensions 12" x 14" x 30")

40" Basalt Column features a concave top with one 1 1/2" outlet creating flow across the top and then down all sides for 360° water coverage. (Dimensions 12" x 14" x 40")

Eternal Springs Waterscapes™

The soothing sound of bubbling water and the beauty of natural stone, simplified.

Hargrove Outdoor Products™ introduces *Eternal Springs Waterscapes™*, a line of fine quality, lightweight concrete bubbler rocks and pondless water features offering exceptional realism, simple installation and easy maintainability. *Eternal Springs* water features are constructed from Glass Fiber Reinforced Concrete (GFRC).

Serenity Series is ideal for smaller spaces in a flowerbed or entryway. The varying options offer the soothing sound of a waterfall with the beauty of realistic looking rock.

TFO8SL1

Tower Falls

Tower Falls are individual stones that are stacked to create multiple levels of waterfalls. Available in 8" and 13" stack heights with one 3/4" outlet for 360° water coverage.

COROSS1

Coronado

The *Coronado* is ledged rock with a 3/4" outlet for 270° of water coverage.

Pooling Stones

combine shallow pools of water and gently flowing tranquil waters, which are naturally attractive to wildlife for bathing or a quick drink.

RASTSS1

Rambling Stream

(above) The *Rambling Stream* has a single 1 1/2" outlet that flows to a raised area on the rock that diverts and spreads the flow of water off the front of the rock for 180° of water coverage.

BBSTSS1

Babbling Brook

(above) The *Babbling Brook* pooling stone has a single 1 1/2" outlet which slowly feeds a large gently moving pool approximately 2-3" deep; great for a birdbath or a cool drink for a squirrel. (Dimensions 30" x 40" x 20")

WASPSS1

Wandering Spring

(left) The *Wandering Spring* pooling stone has a single 1 1/2" outlet, which slowly meanders across the stone and off the waterfall across the front. (Dimensions 30" x 18" x 10")

Seasonal Escapes

are designed to be an outdoor centerpiece that provides two alternative looks depending on personal preference or time of year.

The Waterscape (below) option has two sandstone style bubbler rocks. Water bubbles out of the top of each rock and flows down the face creating a beautiful scene with the peaceful sound of flowing water. This flows into a reservoir tub that has a pump that recirculates the water up through the bubbler rocks. The Waterscape scene is finished off with the rock wall surround covering the view of the reservoir. (Dimensions 48" x 48" x 40")

The Fire Pit (above) option contains a 40,000 BTU stainless steel drop-in burner and six realistic gas logs. The Fire Pit is surrounded by the rock wall surround and is available in natural gas or propane. (Dimensions 48" x 48" x 16")

Accessories

enhance any Waterscape easily with accessory kits. We have eliminated all the guesswork and determined what would be necessary to add accent lighting, auto-fill valves and decorative surround or perform maintenance.

LED2

LED Rock Lights (left) are the size of a golf ball and yet have an incredibly bright output. The small light fixture comes with a 15-foot cord and is rock shaped, which makes hiding them easy.

The Auto-fill Valve (above) is a heavy-duty brass fill valve for use in Eternal Springs water features for maintaining the water level

"All Season" Bacteria (above) is designed to work in Spring, Summer and Fall on removing ammonia, nitrates, phosphates, sludge and improving water clarity.

ALGA

Algaway 5.4 (left) is the #1 recommended product for eliminating string algae in water features. Safe for use with fish and aquatic plants.

Rigid Liner Kits

contain a hard polyurethane reservoir with grating and mesh, a magnetic drive pump, either 600 or 1050 gallons per hour (GPH) and the fittings and valves necessary for 1-3 outlets. (Dimensions installed: 40" x 48" x 12", 48" x 48" x 12")

Space Saver Kits

provide a small reservoir for those tight places that a normal reservoir just won't fit. They can be used with our smaller bubblers or ones in which there is not significant water-loss due to splash out. We offer them with rigid liner reservoirs, one outlet and your choice of a 200 or 600 gallon per hour (GPH) magnetic drive pump. (Dimensions: 24" x 24" x 11")
