Tungsten Smart-Heat Electric, Black

Tungsten Smart-Heat Electric, White

FEATURES

- **High Performance Mesh Screen:** The Tungsten's unique front cover manipulates infrared energy to maximize performance while achieving a superior spread of heat.
- **Ultra-Durable Quartz Element:** Translucent fused quartz houses a thick steel coil to create a high-output, durable element that emits a soft red glow.
- **Parabolic Specular Reflector (PSR):** A mirror-finish anodized rear reflector directs lost infrared energy back towards the target, maximizing performance and efficiency.
- **Precise Directional Heating:** Accurately alter coverage through simple bracket adjustment. (Mounting Brackets Included)

Notes:

Each channel has a max capacity of 6,000 watts. Each channel of the same controller should assume the same wattage heaters.

The Affinity Smart-Heat Controls require a smart device with internet connectivity, as well as the Bromic Affinity Smart-Heat App which is available for download through the Apple App Store and Google Play Store.
