NEW AGE FIREPLACE SERIES

Why Choose a Zero-Clearance Fireplace Kit

INDOOR/OUTDOOR

New Age fireplace kits are UL-127/ULC-S610 Certified for outdoor or indoor applications, and ICC-ES AC156 Certified for Seismic Resistance. Use a vented gas insert or wood burning.

MODERN LOOK

The flat top design of New Age Fireplace kits, not only gives a modern look, but also makes for easy construction and mounting televisions above fireplaces.

PAVILIONS AND PERGOLAS

The Zero Clearance rating for New Age kits means you can build directly onto the base kit, which means they build seamlessly and safely into backyard pavilions and pergolas.

NEW AGE FIREPLACE SERIES

Benefits of Fireplace Kits

ZERO CLEARANCE

The design of New Age masonry chimneys incorporates the necessary “air gap” making it possible for framing to be in contact with the fireplace. A clay flue sits separately inside concrete outer blocks giving the fireplace its Zero Clearance rating.

QUICK & EASY INSTALLATION

Once your concrete footing is ready, New Age kits require only 2 people to install in 3-4 hours and can be veneered the same day.

INDOOR/OUTDOOR FIREPLACE KITS

New Age Zero Clearance

New Age fireplace kits are rated Zero-Clearance, meaning you can safely build right up to the chimney, which makes it great for mounting TVs. New Age kits can be installed using masonry chimneys or metal pipe, in both indoor and outdoor applications

NEW AGE FIREPLACE KITS

Overall Dimensions:

CURE TIME: *For proper curing, please wait a minimum of 28 days before lighting any fires.*

CONCRETE FOOTING REQUIRED — *check local codes, but we recommend extending down to the frost line in your area.*

NEW AGE FIREPLACE SERIES

Chimney Construction

MASONRY CHIMNEY

New Age™ kits are available in all-masonry, zero clearance configurations, where structural framing may be placed in direct contact with the kit and its masonry chimney. A separate clay flue sits within the concrete outdoor block to create an “air gap” necessary for Zero Clearance applications. Larger fireplaces (60”, 72”) require double chimneys.

Air Gap

8” Flue Extension Outer Blocks

Add 1 bucket of mortar per
8 additional flue extensions.

Clay Flue

Item #	Description	Retail
SA-2323-8	23” x 23” x 8” Outer Block (for 36”, 60”*)	\$140
SA-FL1313	13” x 13” x 24” Clay Flue (for 36”, 60”*)	\$80
SA-2226-8	22” x 26” x 8” Outer Block (for 42”, 48”, 72”*)	\$148
SA-FL1317	13” x 17” x 24” Clay Flue (for 42”, 48”, 72”*)	\$118

*60” and 72” New Age models require a double chimney stack.

METAL CHIMNEY

New Age™ kits may be used with 14” or 16” UL-103 metal chimney. However, please note that unlike our masonry flue, the metal chimney will need a 2” clearance from combustibles. Metal chimney is ideal in situations where total weight could become an issue and is around ten times faster to install vs. a masonry flue. Larger fireplaces (60”, 72”) require double chimney.

Chimney Adaptor

For Metal Chimney
flue installations
14” or 16”

- New Age 36” = 14” Diameter
- New Age 42” = 16” Diameter
- New Age 48” = 16” Diameter
- New Age 60” = 14” Diameter x 2
- New Age 72” = 16” Diameter x 2

See page 7 for metal chimney components and pricing.
